ONBOARDA

AI-Powered AML/CFT Compliance Platform

Intelligent onboarding. Automated risk scoring.
Built for Mauritius-licensed Payment Intermediary Services.

FSC-Licensed | FATF-Aligned | Data Protection Act 2017 Compliant

THE CHALLENGE

Why Traditional Onboarding is Broken

Slow Processing

Average onboarding takes 5-15 days with manual reviews, paper forms, and back-and-forth requests.

Compliance Risk

Manual screening misses PEPs, sanctions changes, and adverse media — exposing firms to regulatory penalties.

Fragmented Workflow

Disconnected tools for KYC, screening, risk scoring, and document verification create audit gaps.

High Operational Cost

Each compliance officer can only handle 5-8 cases/week. Scaling means hiring, not optimising.

THE SOLUTION

One Platform. End-to-End Compliance.

Client Portal

White-label onboarding wizard with pre-screening, document upload, PEP declarations, and consent gates.

AI Engine

10 specialised agents for risk scoring, document verification, sanctions screening, and compliance memo generation.

Back Office

Full compliance dashboard with case management, EDD pipeline, KPI analytics, RBAC, and audit trail.

10 AI Agents | **66 Document Checks** | **5 Risk Dimensions** | **4 User Roles**

AI RISK SCORING ENGINE

FATF-Aligned, 5-Dimension Weighted Model

Automated Routing

Fast Lane	Score 0–39	< 1 day
Standard Review	Score 40–54	2–3 days
Enhanced DD	Score 55–69	5–7 days
Escalation	Score 70–100	7–14 days

10-AGENT AI PIPELINE

Intelligent Automation at Every Stage

01
Account Risk
Email, VPN, duplicate checks

02
Pre-Screening
Sector & model plausibility

03
Doc Verification
66 automated checks

04
Business Narrative
Coherence & benchmark

05
UBO Verification
Ownership chain trace

06
FinCrime Intel
Sanctions, PEP, media

07
Source of Funds
Plausibility analysis

08
Risk Decision
5-dim composite score

09
Compliance Memo
Auto-generated report

10
Ongoing Monitor
Continuous rescreening

COMPLIANCE BACK OFFICE

Full Visibility. Complete Control.

Application Review

Full case detail with AI risk bars, agent results, and compliance memo

Case Management

Assign, escalate, and track every application across the team

EDD Pipeline

Dedicated enhanced due diligence workflow with senior CO sign-off

KPI Dashboard

20+ metrics across operations, risk quality, AI performance, and team productivity

Screening Queue

Sanctions, PEP, and adverse media screening status per person

Audit Trail

Every action logged with timestamp, user, role, IP address, and details

Role-Based Access Control: Administrator | Senior CO | Compliance Officer | Analyst — 18 granular permissions

BUILT FOR COMPLIANCE

Mauritius Regulatory Framework Aligned

FIAMLA 2002	Anti-money laundering obligations, STR reporting, 7-year data retention
FIAMLR 2018	PEP declaration requirements, enhanced due diligence triggers, ongoing monitoring
FSC Act 2007	Licensing requirements for Payment Intermediary Services
FATF Standards	Risk-Based Approach methodology, 5-dimension scoring aligned with 2012 Recommendations
DPA 2017	Data Protection Act consent gates, data minimisation, right to erasure
Banking Act	Bank Secrecy Act provisions, KYC obligations for financial intermediaries

Platform is configurable to adapt to other jurisdictions — UK (FCA), EU (AMLD6), UAE (CBUAE), Singapore (MAS).
